Performance data shown represents past performance and does not guarantee future results. The investment return and the value of the investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data shown. For performance current to the most recent month ended, please call (866) 574-3542.

¹ Year-to-date (YTD) performance is actual—not annualized.

The performance percentages shown are net to the investor and represent the performance after the subtraction of all annual asset-based fees and expenses (the "Total Annual Asset-Based Fees"). Investments in SMART529 are subject to various fees, which will then reduce the value of your account as they are incurred. Please see the Offering Statement for specific details.

With the exception of The SMART529 500 Index Fund and The SMART529 Stable Value Fund which remain unchanged, effective October 26, 2012, all of The Hartford-sponsored Underlying Funds ("Hartford Underlying Funds") in which the Age-Based and Static Portfolios may invest in were removed and replaced by Vanguard sponsored Underlying Funds ("Vanguard Underlying Funds"). As a result, all of the assets of each Age-Based and Static Portfolio invested in Hartford Underlying Funds were redirected from the predecessor Hartford Underlying Funds to the new Vanguard Underlying Funds. Please refer to the Table beginning on page 10 of the Offering Statement for the list of the Vanguard Underlying Funds in each Age-Based and Static Portfolio.
